ABOUT ME

I'm 28. Bachelor degree graduate in computer science, master degree graduate in artificial intelligence and computer security, passionate about digital forensics. I'm currently working as a Junior Cybersecurity Specialist.

TECHNICAL SKILLS

C++, Java, Python, Perl, DLV-ASP, HTML, CSS, Tailwind CSS, JavaScript, TypeScript, Angular, NG-ZORRO, Spring Boot, Django, Pentaho, Tableau, Postman, Figma, SQL (MySQL, PostgreSQL, MariaDB), GNS3, Git, data analysis (Machine Learning & Data Warehouse), cybersecurity tools (Wireshark, ZAP, Burp Suite), Windows, Linux (Ubuntu, Kali, CentOS).

SOFT SKILLS

Ability to work in a team, I am a patient and empathetic person, able to listen and understand the point of view of others. I believe in sharing knowledge as a tool for growth and I am always ready to learn new skills.

WORK EXPERIENCE

3/2025 - current

Junior Cybersecurity Specialist
TIPS project - development of an advanced Threat Intelligence platform for cyber threat mitigation. Skills developed: visualisation, predictive modelling and data analysis; database management and SQL scripting; OSINT research, analysis and reporting; frontend development.

@ Internet & Idee

EDUCATION

9/2021 - 7/2024

Artificial Intelligence and Computer Science (Computer Security)
Università della Calabria - final grade: 95/110

Master Degree

9/2016 - 3/2021

Computer Science
Università della Calabria - final grade: 90/110

Bachelor Degree

9/2011 - 7/2016

Human Sciences
Liceo Statale Lucrezia della Valle - final grade: 97/100

Diploma

LANGUAGES

Italian - mother tongue, English - B2

COURSES & CERTIFICATIONS

December 2025

AOC 2025
ID: THM-6CDXW/WNRUY
Certified skills: cyber security fundamentals.

TryHackMe

December 2025

Pre Security
ID: THM-PU9LUMK9QU
Certified skills: cyber security basics, networking basics and weaknesses, the web and common attacks, learn to use the Linux operating system.

TryHackMe

October 2025

Introduction to Penetration Testing
ID: 532606237.
Certified skills: fundamentals of Ethical Hacking and Penetration Testing.

Security Blue Team

September 2025

Blue Team Junior Analyst
ID: 284547898.
Certified skills: Open-Source Intelligence, Digital Forensics, Vulnerability Management, DarkWeb Operations, Threat Hunting and Network Analysis.

Security Blue Team

MAIN UNIVERSITY PROJECTS

GitHub link

COD - Cyber Offense and Defense [group project]

The goal of this project was to write 3 complete scripts that solved 3 chosen challenges on PortSwigger Web Security Academy and implement a vulnerable backend. Vulnerabilities treated: CSRF, command injection, XXE injection, file upload (+ stored XSS). Developed with Python, Flask and HTML.

GitHub link

The CIA Hive Component — Network Security [group project]

This project had the goal of explaining and replicating a cyber attack, in our case Hive. Based on documents released by WikiLeaks, you can consult the source code to access the material.

COMPAS Scores Analysis — Data Analytics (Machine Learning) [group project]

Correctional Offender Management Profiling for Alternative Sanctions (COMPAS) is a case management and decision support tool developed and owned by Northpointe used by U.S. courts to assess the likelihood of a defendant becoming a recidivist. The main goal of this academic project was to determine and predict if a defendant became a recidivist. The secondary goals were: predicting if a defendant became a violent recidivist or not and predicting the difference (in days) between the date of the first crime and the date of the recidivist or the violent recidivist offense. Developed with Python using Jupyter Notebook.
